

Master of Science in Digital Marketing

Enhance your skills in digital marketing through hands-on experience from anywhere

Mobile devices, social media platforms, and emerging technologies have dramatically changed the way people gather, use, and share information. Successful businesses know that customer purchase behavior is heavily influenced by digital channels, and marketing budgets follow. As a result, most employers require more extensive knowledge of digital marketing from their employees – even from staff with traditional marketing roles.

Rutgers Business School's **Master of Science in Digital Marketing** is a fully online, AACSB accredited program intentionally created to address the need for a larger talent pool of digital experts. This in-depth, dynamic, 30-credit program provides marketing professionals with relevant and current content delivered by industry practitioners and scholars with years of experience in the digital marketing field.

*Taught by experts
with both industry and
research backgrounds.*

Faculty Profile: **Stacy Schwartz**

Professor Schwartz is the digital marketing program director who enthusiastically brings her 20+ years of industry experience into the classroom. At Rutgers Business School, she teaches introductory

marketing classes (including mega-sections) and digital marketing courses to both undergraduates and MBAs. She also develops and leads executive-level on-site and online modules on e-commerce and social media for RBS Executive Education Mini-MBA programs. She has received several awards for teaching excellence, including a 2019 Rutgers University Presidential Award.

Stacy has worked with a wide range of consumer- and business-oriented brands, with a focus on digital marketing. For the Interactive Advertising Bureau (IAB), she launched the first accredited professional certification programs for digital media professionals. She served as Vice President of Marketing at Virgin Mobile USA, Web Director at Hospital for Special Surgery, and in a range of leadership roles at internet advertising pioneer DoubleClick, which she joined as its eleventh employee in 1996.

“The benefit of getting my master’s is that I’m bringing a different perspective and a deeper understanding to my job. This isn’t just the basics. I’m delving deep and bringing that knowledge to a company.”

– Krystle White,
MSDM alumni; Account Manager at Oracle

Career Advancement

This innovative program is an industry-driven master degree that can be instrumental in taking your career to the next level. Whether you work in digital marketing or need to gain an expertise in the field to do your job better, this program is designed to help you advance in your career. Our goal is not just to focus on digital marketing, but to teach you how to market effectively in a digital world.
