Curriculum

The **Master of Financial Analysis** program degree is designed to cover over 70% of the material covered on the CFA Level I exam. Included in the curriculum, instructors from the New York Chapter of the Chartered Financial Analyst Institute will teach a four-day intensive CFA review session at our campus in late May. This allows students to identify areas they need to work on before the CFA exam in June. The degree program is designed to not only prepare students academically, but also to provide a way for international students to improve their English proficiency and presentation skills by taking a Summer Intensive Business English language program.

Career Outcomes

Employers recognize the CFA charter as a reliable way to differentiate the most qualified and determined job applicants, frequently listing the CFA charter as a requirement for certain positions. Graduates have started their careers at some of the leading financial institutions, including; Bloomberg, HSBC, JP Morgan Chase, Morgan Stanley, and State Street.

“One of the most valuable things to which I was exposed, was how to create a financial model from scratch in order to derive a target price for the company.”

– Neel Patel,
Financial Analyst, JP Morgan Chase
