

RBS Ph.D. Placements

Prepared by the RBS Ph.D. Office

Last updated July 26, 2010

This report provides information about the employment of students who have graduated from our program during the past ten years. The most recent employment known to the Program Office is given.

Tenure-track positions (and equivalent senior positions in other countries) are marked with an asterisk. For these positions, the following information is also provided:

1. Is the position in a business school accredited by AACSB-International?
2. Is the position in a business school with a Ph.D. program?
3. Is the position in a university that US News classifies as a national university? There are 257 universities in this category.
4. Is the position in a university that US News classifies as a masters university? There are 179 of these in the north, 135 in the midwest, 121 in the south, and 123 in the west.
5. Is the position in a university that US News classifies as a comprehensive bachelors-level university? There are 70 of these in the north, 97 in the midwest, 102 in the south, and 48 in the west.
6. Is the position in a university that US News classifies as a comprehensive liberal arts college? There are 265 colleges in this category.

Within each category, US News gives a numerical ranking to each university in the top 50% but only a quartile classification (Tier 3 or Tier 4) to each university in the bottom 50%. Our two campuses are both in the national category; Rutgers-New Brunswick is ranked 66, while Rutgers-Newark is classified as Tier 3.

Here are totals by department for the different categories.
