

Program Learning Goals and Objectives

1: Learning Goals and Objectives for Undergraduate Programs--Newark and New Brunswick

1. **Knowledge.** Students graduating with a BS degree will have broad understanding of basic business theory and practice and deep understanding of theory and practice within their major field.

Students will demonstrate:

- a. Knowledge of current basic concepts in the functional areas of business.
 - b. Knowledge of current advanced concepts within their major field and an ability to integrate and apply these concepts to practical business problems.
 - c. Proficiency at using current software tools and information systems to manage business data and address practical business problems.
 - d. Ability to apply appropriate quantitative methods to analyze business data, and to apply quantitative modeling techniques to analyze business plans and decisions.
2. **Ethical judgment.** Students graduating with a BS degree will use reasoned and ethical judgment when analyzing problems and making decisions.

Students will demonstrate:

- a. Ability to critically evaluate unstructured business decision-making scenarios and develop innovative and ethical solutions.
 - b. Recognition of ethical dilemmas in unstructured business decision-making scenarios.
3. **Global perspective.** Students graduating with a BS degree will have the breadth of perspective necessary to succeed in a global and diverse business environment.

Students will demonstrate:

- a. Knowledge of the diversity of past and current economic, legal, political, and social structures.
 - b. Understanding of the impact of cultural and demographic diversity on business interactions.
4. **Effective Communication.** Students graduating with a BS degree will be effective communicators.

Students will demonstrate:

- a. Ability to construct clear, concise, and convincing written business communication.
- b. Ability to construct and deliver clear, concise, and convincing oral communication.

2: Learning Goals and Objectives for MBA Programs--MBA, MBA in Professional Accounting and EMBA (domestic and international)

1. **Business knowledge.** MBA graduates will have a command of business theory and practice.

Students will demonstrate:

- a. Mastery of fundamental business concepts and an ability to integrate and apply these concepts to resolve practical business problems.
- b. Proficiency at analyzing and interpreting numerical data to resolve practical business problems.

2. **Ethical judgment.** MBA graduates will use reasoned and ethical judgment when analyzing problems and making decisions.

Students will demonstrate:

- a. Recognition of ethical dilemmas in decision-making scenarios.
- b. To critically evaluate business decision-making scenarios and develop innovative and ethical solutions

3. **Global perspective.** MBA graduates will have the breadth of perspective necessary to lead effectively function in a global and diverse business environment.

Students will demonstrate:

- a. An understanding of how to conduct business internationally.
- b. Ability to lead and/or participate in culturally and demographically diverse teams.

4. **Persuasive communication.** Students graduating with an MBA degree will be effective communicators.

Students will demonstrate:

- a. Ability to construct clear, concise, and convincing written business communication.
- b. Ability to construct and deliver clear, concise, and convincing oral business communication.

3: Learning Goals and Objectives for Master of Accountancy in Financial Accounting Program

1. **Financial Accounting knowledge.** Master of Accountancy in Financial Accounting graduates will have a command of financial accounting theory and practice.

Students will demonstrate:

- a. Mastery of fundamental financial accounting concepts.
 - b. Ability to integrate and apply financial accounting concepts to resolve business problems.
2. **Ethical judgment.** Master of Accountancy in Financial Accounting graduates will use reasoned and ethical judgment when analyzing problems and making decisions.

Students will demonstrate:

- a. Recognition of ethical dilemmas in decision-making scenarios.
 - b. Ability to critically evaluate ethical scenarios and make appropriate ethical choices.
3. **Critical Thinking.** Master of Accountancy in Financial Accounting graduates will be able to understand complex business situations and provide solutions to improve current business practices.

Students will demonstrate:

- a. Students will be able to identify problems in a situation.
 - b. Students will be able to find innovative solutions.
4. **Persuasive communication.** Master of Accountancy in Financial Accounting graduates will be effective communicators.

Students will demonstrate:

- a. Students will be able to communicate information in a clear concise manner.
- b. Students will be able to communicate relatively complex ideas in an understandable manner.

4: Learning Goals and Objectives for Master of Accountancy in Governmental Accounting Program

1. **Governmental Accounting knowledge.** Master of Accountancy in Governmental Accounting graduates will have a command of governmental accounting theory and practice.

Students will demonstrate:

- a. Mastery of fundamental governmental accounting concepts.
- b. Ability to integrate and apply governmental accounting concepts to resolve business problems.

2. **Ethical judgment.** Master of Accountancy in Governmental Accounting graduates will use reasoned and ethical judgment when analyzing problems and making decisions.

Students will demonstrate:

- a. Recognition of ethical dilemmas in decision-making scenarios.
- b. To critically evaluate ethical scenarios and make appropriate ethical choices.

3. **Critical thinking Skills.** Master of Accountancy in Governmental Accounting graduates will be able to understand complex business situations and provide solutions to improve current business practices.

Students will demonstrate:

- a. Students will be able to identify problems in a situation.
- b. Students will be able to find innovative solutions.

4. **Persuasive communication.** Master of Accountancy in Governmental Accounting graduates will be effective communicators.

Students will demonstrate:

- a. Students will be able to communicate information in a clear, concise manner.
- b. Students will be able to communicate relatively complex ideas in an understandable manner.

5: Learning Goals and Objectives for Master of Accountancy in Professional Accounting Program

1. **Professional Accounting knowledge.** Master of Accountancy in Professional Accounting graduates will have a command of professional accounting theory and practice.

Students will demonstrate:

- a. Mastery of fundamental professional accounting concepts.
- b. Ability to integrate and apply professional accounting concepts to resolve business problems.

2. **Ethical judgment.** Master of Accountancy in Professional Accounting graduates will use reasoned and ethical judgment when analyzing problems and making decisions.

Students will demonstrate:

- a. Recognition of ethical dilemmas in decision-making scenarios.
- b. Ability to critically evaluate ethical scenarios and make appropriate ethical choices.

3. **Global perspective.** Master of Accountancy in Professional Accounting graduates will have the breadth of perspective necessary to participate in a global and diverse business environment.

Students will demonstrate:

- a. An understanding of the implications of a globally diverse business environment.
- b. Ability to participate in a culturally and demographically diverse environment.

4. **Persuasive communication.** Master of Accountancy in Professional Accounting graduates will be effective communicators.

Students will demonstrate:

- a. Students will be able to communicate information in a clear concise manner.
- b. Students will be able to communicate relatively complex ideas in an understandable manner.

6: Learning Goals and Objectives for Master of Accountancy in Taxation Program

1. **Taxation Knowledge.** Students graduating with a Master of Accountancy in Taxation degree will be able to demonstrate in-depth knowledge of taxation.

Students will demonstrate:

- a. Students will be able to understand basic taxation concepts.
- b. Students will be able to analyze and solve taxation problems.

2. **Critical Thinking Skills.** Students graduating with a Master of Accountancy in Taxation degree will be able to understand complex business situations and provide solutions to improve current business practices.

Students will demonstrate:

- a. Students will be able to identify problems in a situation.
- b. Students will be able to find innovative solutions.

3. **Ethical Judgment.** Students graduating with a Master of Accountancy in Taxation degree will be able to understand and evaluate ethical issues and situations to make business decisions.

Students will demonstrate:

- a. Students will be able to recognize ethical problems in domestic business contexts.
- b. Students will be able to identify alternatives and make appropriate ethical choices.

4. **Communication Skills.** Students graduating with a Master of Accountancy in Taxation degree will be able to effectively communicate in a way that demonstrates sensitivity to an audience's needs.

Students will demonstrate:

- a. Students will be able to communicate information in a clear concise manner.
- b. Students will be able to communicate relatively complex ideas in an understandable manner.
- c. Students will be able to conduct tax research and convey appropriate cites in order to substantiate their conclusions.

7: Learning Goals and Objectives for Master of Financial Analysis Program

1. **Financial Analysis knowledge.** Master of Financial Analysis program graduates will have a command of financial analysis theory and practice.

Students will demonstrate:

- a. Mastery of fundamental financial analysis concepts.
 - b. Ability to identify relevant input data, use analysis concepts to distill the data, and make buy and sell decisions based on analysis.
2. **Ethical judgment.** Master of Financial Analysis program graduates will use reasoned and ethical judgment when analyzing problems and making decisions.

Students will demonstrate:

- a. Recognition of ethical problems in financial analysis and practice.
 - b. To critically evaluate ethical scenarios and make appropriate ethical choices.
3. **Global perspective.** Master of Financial Analysis program graduates will have the breadth of perspective necessary to participate in a global and diverse business environment.

Students will demonstrate:

- a. An understanding of global and diverse business environment.
 - b. Ability to participate in culturally and demographically diverse environment.
4. **Persuasive communication.** Master of Financial Analysis program graduates will be effective communicators.

Students will demonstrate:

- a. Students will be able to communicate information in a clear concise manner.
- b. Students will be able to communicate relatively complex ideas in an understandable manner.

8: Learning Goals and Objectives for Master of Information Technology and Analytics Program

1. Business Technology Knowledge. Students graduating with a Master of Information Technology degree will be able to demonstrate business technology knowledge.

Students will demonstrate:

- a. Students will be able to understand the current practices and technology used in businesses.
- b. Students will be able to analyze and solve complex business problems with cutting edge technology.

2. Information Technology Knowledge. Students graduating with a Master of Information Technology degree will be able to demonstrate information technology knowledge.

Students will demonstrate:

- a. Students will be able to understand basic information technology concepts.
- b. Students will be able to analyze and solve information technology problems.

3. Critical Thinking Skills. Students graduating with a Master of Information Technology degree will be able to understand complex business situations and provide solutions to improve current business practices.

Students will demonstrate:

- a. Students will be able to identify problems in a situation.
- b. Students will be able to find innovative solutions.

4. Communication Skills. Students graduating with a Master of Information Technology degree will be able to effectively communicate in a way that demonstrates sensitivity to an audience's needs.

Students will demonstrate:

- a. Students will be able to communicate information in a clear concise manner.
- b. Students will be able to communicate relatively complex ideas in an understandable manner.

9: Learning Goals and Objectives for Master of Quantitative Finance Program

1. **Quantitative Finance knowledge.** MQF graduates will have a command of quantitative finance theory and practice.

Students will demonstrate:

- a. Mastery of fundamental quantitative finance concepts.
- b. Ability to integrate and apply quantitative finance concepts to resolve business problems.

2. **Ethical judgment.** MQF graduates will use reasoned and ethical judgment when analyzing problems and making decisions.

Students will demonstrate:

- a. Recognition of ethical dilemmas in decision-making scenarios.
- b. To critically evaluate ethical scenarios and make appropriate ethical choices.

3. **Global perspective.** MQF graduates will have the breadth of perspective necessary to participate in a global and diverse business environment.

Students will demonstrate:

- a. An understanding of global and diverse business environment.
- b. Ability to participate in culturally and demographically diverse environment.

4. **Persuasive communication.** MQF graduates will be effective communicators.

Students will demonstrate:

- a. Students will be able to communicate information in a clear concise manner.
- b. Students will be able to communicate relatively complex ideas in an understandable manner.

10: Learning Goals and Objectives for Master of Supply Chain Management Program

1. **Supply Chain Management knowledge.** Master of Supply Chain Management graduates will have a command of supply chain management theory and practice.

Students will demonstrate:

- a. Mastery of fundamental supply chain management concepts.
 - b. Ability to integrate and apply supply chain management concepts to resolve business problems.
2. **Ethical judgment.** Master of Supply Chain Management graduates will use reasoned and ethical judgment when analyzing problems and making decisions.

Students will demonstrate:

- a. Recognition of ethical dilemmas in decision-making scenarios.
 - b. To critically evaluate business decision-making scenarios and develop innovative and ethical solutions.
3. **Global perspective.** Master of Supply Chain Management graduates will have the breadth of perspective necessary to participate in a global and diverse business environment.

Students will demonstrate:

- a. An understanding of global and diverse business environment.
 - b. Ability to participate in culturally and demographically diverse environment.
4. **Persuasive communication.** Master of Supply Chain Management graduates will be effective communicators.

Students will demonstrate:

- a. Students will be able to communicate information in a clear concise manner.
- b. Students will be able to communicate relatively complex ideas in an understandable manner.

11: Learning Goals and Objectives for Master of Supply Chain Analytics Program

1. **Supply Chain Analytics Skills:** Masters of Science in Supply Chain Analytics graduates will develop skills in data analytics applicable to the supply chain field.

Students will demonstrate:

- a. Students will demonstrate data acquisition and data processing skills.
- b. Students will demonstrate descriptive and predictive data analysis skills.

2. **Supply Chain Management Knowledge:** Masters of Science in Supply Chain Analytics graduates will master knowledge in supply chain management.

Students will demonstrate:

- a. Students will be able to master knowledge in functional areas of supply chain management.
- b. Students will be able to identify and solve practical supply chain-related problems.

3. **Team Leadership and Project Management Skills:** Masters of Science in Supply Chain Analytics graduates will obtain team leadership and project management skills.

Students will demonstrate:

- a. Students will demonstrate leadership and communication skills.
- b. Students will demonstrate project management skills.

4. **Global Perspective and Data Analytics Application:** Masters of Science in Supply Chain Analytics graduates will have global perspective and competence in applying data analytics to supply chain management.

Students will demonstrate:

- a. Students will be able to synthesize information for better decision making with a global perspective.
- b. Students will be able to apply analytics to data-driven supply chain problems.

12: Learning Goals and Objectives for Master of Science in Business of Fashion Program

1. **Management Skills and Knowledge for Business of Fashion:** Masters in Business of Fashion graduates will obtain understanding of management concepts and skills that individuals need to know and utilize effectively, in order to work well with others in organizations.

Students will demonstrate:

- a. Students will become more aware and have an appreciation of their own personal and interpersonal traits and skills, in order to apply them to be effective team members and leaders.
 - b. Students will be able to understand the key roles team members play when working in organizations and how to work more effectively with others.
2. **Critical Thinking/Problem Solving Skills:** Masters in Business of Fashion graduates will be able to understand complex business situations and provide solutions to improve current business practices.

Students will demonstrate:

- a. Students will be able to identify problems in a situation and find appropriate solutions.
 - b. Students will become more aware of their values, under which situations their values may be challenged, and how to articulate their values to effectively promote fairness and justice in organizations.
3. **Integration Skills:** Masters in Business of Fashion graduates will be able to understand the relationship between the Creative sector and the Business sector in complex business situations and provide solutions to improve current business practices.

Students will demonstrate:

- a. Students will be able to identify synergies between the Creative and Business sectors in a situation.
 - b. Students will be able to find strategies or build new processes to maximize efficiency using the integration of the creative and business processes.
4. **Communication Skills:** Masters in Business of Fashion graduates will be able to be effective communicators.

Students will demonstrate:

- a. Students will be able to construct clear, concise, and convincing written business communication.
- b. Students will be able to deliver clear, concise, and convincing oral business communication.

13: Learning Goals and Objectives for Master of Healthcare Services Management Program

1. **Healthcare system and management domain knowledge:** The program provides students with a depth and breadth of knowledge of the healthcare system and healthcare management.

Students will demonstrate:

- a. Students will master fundamental understanding of the healthcare systems and healthcare management concepts.
 - b. Students will be able to integrate and apply healthcare management concepts to resolve business problems in healthcare delivery organizations.
2. **Ethical judgment:** The program develops students' competencies in professionalism and ethics.

Students will demonstrate:

- a. Students will recognize ethical dilemmas in decision-making scenarios.
 - b. Students will evaluate business decision-making scenarios and develop innovative and ethical solutions.
3. **Critical thinking and problem solving skills:** The program develops students' competencies in critical thinking and problem solving skills.

Students will demonstrate:

- a. Students will be able to develop models to critically analyze and optimize business decisions.
 - b. Students will master quantitative tools and software to solve real life problems.
4. **Effective communication and teamwork skills:** The program develops students' competencies in communications and interpersonal effectiveness.

Students will demonstrate:

- a. Students will be able to communicate information in a clear concise manner.
- b. Students will be able to work collaboratively and effectively with others as a team to undertake a challenging task.

14: Learning Goals and Objectives for Ph.D. in Management Program

1. Advanced Knowledge in Specialized Areas

Objectives

- a. Doctoral students will acquire advanced knowledge in areas of specialization.
- b. Doctoral students will complete dissertation proposals, an original intellectual contribution to their field of knowledge.

2. Advanced Research Skills

Objectives

- a. Doctoral students will develop advanced theoretical or practical research skills for the area of specialization.
- b. Doctoral students will make original research contributions.

3. Teaching Skills

Objectives

- a. Doctoral students will obtain effective teaching skills in institutions of higher education.
- b. Doctoral students will obtain teaching experience in institutions of higher education.

4. Placement Goals

Objectives

- a. Doctoral students will be employed by graduation.
- b. Doctoral students will be placed in tenure-track assistant professor positions.
