Modernizing USPS: Lessons from Foreign Posts
ADVANCED WORKSHOP IN REGULATION AND COMPETITION

Networking Industries—energy, electricity, gas, postal, telecom, water, etc.—are currently undergoing major changes, the most significant being regulatory changes. The Workshop presents some of the latest economic thinking used to analyze major current problems of network industries. Competition, ‘deregulation’, and the increased use of market rather than regulatory processes outline in very broad terms the material to be covered. In addition, the Workshop will provide some of the latest legal thinking and its economic impact upon the increasingly competitive environment of network industries.

OBJECTIVE
To promote a better understanding of competition, regulatory environment, challenges in network industries and the role of regulation

WHO SHOULD ATTEND?
Individuals interested in developing a better understanding of competition, forthcoming challenges, and regulatory developments in network industries and applying it in their company or regulatory commission.

APPROACH
The Workshop is organized annually as three one-day meetings combined with a two-day conference in the Eastern U.S. and a second two-day conference on the West Coast. The meeting format is designed to allow for both presentation of recent research and the open discussion of new ideas. The topics covered provide not only the latest research on competitive developments in network industries, but also instructions on subjects required for a better understanding of competition.

CONTACTING CRRI
Home Page:  www.crri.rutgers.edu
Address:  CRRI, Rutgers Business School □ 1 Washington Park □ Newark, NJ 07102-3122
