RUTGERS

Rutgers Business School
Newark and New Brunswick

Master of Science in Healthcare Services Management

Managing healthcare innovation, data analysis and technology management

The **Master of Science degree in Healthcare Services Management** is a 30-36 credit hour degree program designed to prepare professionals with the knowledge, skills and experience needed to spearhead operations in healthcare services organizations and their extended supply chains.

The program customizes business-oriented and practice-based MBA curriculum for the healthcare services sector. It is positioned to be one of the few healthcare management programs that is able to deliver a high level of preparation and training in leadership, analytics and operations, necessary to lead organizations to achieve operational excellence in a rapidly changing environment.

Classes will be held at 100 Rockafeller Rd in New Brunswick, 40 minutes to NYC.

Faculty Profile: Yao Zhao

Professor Zhao Professor in the Supply Chain Management department. Yao is the director of the Masters in Healthcare Services Management program. Professor Yao Zhao's research and teaching experiences extend to medical decision making, healthcare management, pharmaceutical supply chains, and analytics. Zhao has worked on research projects with New York Presbyterian Hospital (Columbia Medical Center), Robert Wood Johnson University Hospital, Cancer Institute of New Jersey, and Johnson and Johnson.

Admissions

Professionals will benefit from a variety of healthcare delivery sector organizations. It is designed for individuals interested in managerial or executive careers in healthcare services organizations (hospitals, clinics, long term care providers, etc.), healthcare consulting firms, and companies in the extended healthcare supply chains.

"I chose this program because Rutgers is a top leading business school, and this program not only combined hospital management, but incorporates the whole healthcare sector."

– Dr. Ahmar Mehmood,
NY Interventional Spine & Pain Medicine
