The Rutgers Governmental Accounting program is singular in its focus on preparing professionals for the rapidly growing area of public financial management.

Not only does the program provide them with a solid technical base, it aids them in developing high-quality research and exploration skills. Along with developing accountants who can better serve and manage the financial needs of government, the program also helps to establish a pool of professionals who can provide critical input to the standard-setting process, which benefits all taxpayers.

The Master of Governmental Accounting focuses on developing graduates with strong communications and decision-making skills, experienced in leveraging and designing technology and information systems, with broad insight into the accounting, financing, and operational needs of governmental entities. Students may select electives from a variety of programs, including MPA, MBA, and other accountancy courses. As an alternative to the master's program, non-matriculated students may complete the Certificate in Governmental Financial Management.

Dual Degree Program
The Master of Public Administration (MPA)/Master of Accountancy in Governmental Accounting (MACCY) is a dual degree program accounting—the Master in Governmental Accounting prepares graduates to take advantage of career opportunities in one of today's fastest growing specialized fields—government accounting, auditing, and finance. The 10-course program is designed for prospective CPAs, practicing CPAs, MBA, MPH, and accounting students who want to specialize and advance their careers in government financial management. Through its online offerings, students can earn the Master in Governmental Accounting degree without ever setting foot in a classroom, allowing them to continue in their careers as they build their knowledge and expertise. Candidates working within government, regardless of state residency, are eligible for in-state tuition.

#1 in Diversity
Creating Innovation in Companies
Innovation is essential for corporations to maintain growth and stay ahead of the competition. These successful companies recognize diversity to be a key ingredient to meeting their innovation goals. Rutgers Business School is an integral part of a university that has been ranked #1 in diversity for its campus that has been ranked #1 in diversity.

Certificate in Governmental Financial Management
As an alternative to the master’s program, non-matriculated students may complete four online courses to receive a Graduate Certificate in Financial Management and prepare to sit for the Certified Government Financial Manager exam. The courses—Governmental Accounting and Auditing, Public Sector Auditing, Governmental Budgeting Systems, and Design and Development of Information Systems—are also later be applied towards the master's degree.

Irfan A. Bora, CGFM, CPA, CMA
Director, Masters in Governmental Accounting
Department of Accounting and Information Systems
Rutgers Business School
Professor Bora is the former Chief Financial Officer and Director of Finance and Administration of the New Jersey Meadowlands Commission where he managed the financial operations of the agency and served as the administrator of the Meadowlands Interjurisdictional Tax Sharing Formula. He was instrumental in developing the online component of the program making it the first complete online graduate program at Rutgers Business School. Professor Bora teaches courses in governmental accounting and auditing and design and development of information systems. He brings into the classroom public financial management expertise covering a broad spectrum of experience with real-world applications and strong relationships with leaders in the field thus offering students career advice and planning.
