Master of Supply Chain Management

Take your career to the next level with an online degree

The Master in Supply Chain Management program is an innovative, solution-oriented 30-credit Master's degree that can be instrumental in taking you to the next level in your career.

Like our traditional face-to-face graduate programs that were ranked 11th in North America by Gartner Supply Chain Leaders in 2014, and 11th in the nation in the 2015 U.S. News & World Report. Rutgers Business School has been recognized for delivering the best online graduate programs in the country, ranked #14 in the nation in the 2016 US News & World Report survey for the “Best Online Graduate Business Programs.” We provide the same top quality instruction in a more convenient online delivery structure. The ten-course program can be completed in as little as one year without any residency requirement.

The Master of Supply Chain Management program is 100% online. There are no in class courses and hence there is no requirement to be on campus during the entire duration of the program. The program is designed to be completed online anytime, anywhere, in a highly interactive setting.

Student Perspectives

“If I had not made the adjustments to our company’s sales forecast early in the course (I used my company as my “test Company” for forecasting) we would have run out of inventory for at least 6 weeks due to the lead-time it takes to get ocean containers from China to the US. The Demand Management class came at a perfect time to help me and help the company.”

Scott Palmer, Rutgers MS SCM ’17
COO–Spikeball, Incorporated

“Our people are our strongest asset. It is important to us to partner with one of the leading Supply Chain Management Universities in the United States: Rutgers Business School.”

Marc Meier
SVP, Kuehne + Nagel North America
