Master of Accountancy in Financial Accounting

Combine on-campus and online courses to fast-track your CPA

The Rutgers Business School Master of Accountancy in Financial Accounting is an innovative graduate degree program designed for graduating college accounting majors who intend to become CPAs and need to earn 30 additional college credits to satisfy the “150 hours” requirement for professional accounting certification.

The RBS master program differs from other programs because it is designed to provide flexibility for both students and accounting firms. Accounting graduates admitted into the program in the summer, who will begin work with a firm in September, can complete 60% of the degree requirement prior to joining the firm.

Ranked among the top 40 graduate accounting programs in North America and with a curriculum endorsed by the Institute of Management Accountants, our accounting master program is strategically designed to help meet the career goals of recently-graduated accounting majors looking to prepare for the CPA and CMA exams.

No prior work experience is required, so you can start right away. Earn a master in accountancy in as little as one year and kick-start your career.

Faculty Profile: Daniel Stubbs

Professor Stubbs is the Director of the Master of Accountancy in Financial Accounting program. He is a CPA who has served as chief financial officer and controller in public, private and not-for-profit sectors.

He is also a former Executive Director of the NY State Board for Public Accountancy; serves on the Board of Directors of the Center for the Public Trust (National Association of State Boards of Accountancy); and a Treasurer of the Rutgers-Newark Accounting Careers Awareness Program (ACAP).

Curriculum

The Master of Accountancy in Financial Accounting program is a 30-credit, hybrid graduate accounting program that combines the best of in-person and online learning to provide you and hiring accounting firms with optimal flexibility. Strategically designed to help meet career goals of recently-graduated accounting majors looking to prepare for the CPA and CMA exams towards a successful accounting career.

Career Outcomes

Within six months of graduation, 90% of students had full time employment. On a yearly basis, graduates are hired to join the team of a variety of organizations - from the Big 4, to nonprofits, to smaller boutique firms.

“With the program providing a bridge to the 150-credit requirement and helping in preparation for the CPA exam, I became a licensed CPA a year after graduation.”

– Luis Payan, Audit Supervisor
