Prepare for the CFA in one year, STEM program 41 km from NYC

The Rutgers Business School Master of Financial Analysis is a 33-credit program focusing on analytical and quantitative skills, and financial management. It is tailored to help students be successful when they take the CFA exam. The CFA Charter: The gold Standard for the Finance Industry.

Our STEM program allows students to have up to 3 years of OPT compared to only 1 year at non-STEM programs. This master degree also provides highly desired abilities that are valued in a wide-range of positions and careers. In one year, students can earn a master degree targeting the skills they want for a rewarding, open-ended career. Rutgers is one of only 53 CFA Institute Affiliate Schools to offer a one-year master degree that helps prepare students to take the CFA exam. Study on our safe, suburban campus, 41 km to NYC.

Faculty Profile: Daniel Weaver

Professor Weaver is the Director of the Master of Financial Analysis program. Dan’s research and teaching focus is on security design, security market structure, and FinTech.

He has testified before the United States Congress twice and the U.S. Security and Exchange Commission once.

Curriculum

The Master of Financial Analysis program degree is designed to cover over 70% of the material covered on the CFA Level I exam. Included in the curriculum, instructors from the New York Chapter of the Charted Financial Analyst Institute will teach a four-day intensive CFA review session at our campus in late May. This allows students to identify areas they need to work on before the CFA exam in June. The degree program is designed to not only prepare students academically, but also to provide a way for international students to improve their English proficiency and presentation skills by taking a Summer Intensive Business English language program.

Career Outcomes

Employers recognize the CFA charter as a reliable way to differentiate the most qualified and determined job applicants, frequently listing the CFA charter as a requirement for certain positions. Graduates have started their careers at some of the leading financial institutions, including; Bloomberg, HSBC, JP Morgan Chase, Morgan Stanley, and State Street.

“One of the most valuable things to which I was exposed, was how to create a financial model from scratch in order to derive a target price for the company.”

– Neel Patel,
Financial Analyst, JP Morgan Chase
