Advance your career in one of the fastest-growing areas of business

The Master of Science in Supply Chain Management program is an innovative, solution-oriented 30-credit Master’s degree program that will be instrumental in taking you to the next level in your career.

We have been recognized as #6 among the Best Online Graduate Business Programs within the Supply Chain Management/Logistics concentration by U.S. News & World Report, 2019. We provide top quality instruction in a more convenient online delivery structure.

Rutgers Business School’s online Master of Science in Supply Chain Management is designed to provide Supply Chain Management professionals with intense instruction in the latest tools, techniques and strategies that are considered “Best Practices” in the Supply Chain Management field.

Classes will be held 100% online

Curriculum

Our students are our primary focus. We strive to foster an engaging and supportive learning community of professionals (97% of our students are working full-time), drawing on the unique experiences of each student. The success our students are having in their careers speaks for itself. Current students reported an almost 19% increase in base salary while enrolled in the program. Our alumni continue to receive raises and reported a 26% increase over the base salary they reported when they entered the program.

Faculty Profile: Rudolf Leuschner

Professor Leuschner is the Program Director for the online Master of Science in Supply Chain Management program and an Associate Professor in the department of Supply Chain Management at Rutgers Business School. He is at the forefront of online education as the Faculty Coordinator for Distance and Online Learning and the creator of the Supply Chain Management MOOC specialization.

His research focuses on the end-to-end supply chain and the integration of its three primary flows: products, information and finances. Specifically, in the new field of Supply Chain Finance, he has been active in developing relevant insights for academic and practitioner audiences. He co-developed the Rutgers Business School Payment Practices Index which ranks retailers’ performance.

He has been a frequent speaker at academic as well as practitioner conferences. His teaching interests at the undergraduate, graduate, and executive education level are on the topics of Supply Chain Strategy, Innovation, Supply Chain Finance, and Demand Management.
