Improve and refine your technical abilities in taxation

The Rutgers Business School Master of Accountancy in Taxation is a 30-credit, online-hybrid, part-time program designed to provide accounting professionals with a competitive edge while meeting the demand for highly skilled practitioners with the knowledge and expertise to develop and implement successful tax strategies for working professionals seeking to prepare for the CPA exam or for current CPAs seeking to advance their careers.

Ranked #5 Master in Taxation program in the U.S. by Accounting Degree Review, the program focuses on developing strong analytical, research, and communication skills in graduates who possess the ability to recognize and leverage the interrelations among business, finance, and taxation.

Most classes will be taken at our Newark campus, conveniently located just a few blocks from the Newark Penn and Broad Street train stations.

Faculty Profile: Jay Soled

Professor Soled is the Director of the Master of Accountancy in Taxation program. He is admitted to practice in New Jersey, the U.S. District Court, District of New Jersey, and New York. He is a member of the Essex County (Section of Taxation) and American Bar Associations. A magna cum laude and Phi Beta Kappa graduate of Haverford College, he holds a Juris Doctor degree from University of Michigan School of Law, cum laude, and a Master of Laws degree in Taxation from the New York University School of Law where he was an editor of the Tax Law Review.

Over his tenure at Rutgers, Professor Soled has a flare for the classroom. The recipient of five teaching awards, he brings animation to what others might think is a dry subject. Aside from having written numerous law review articles, books, and op-eds, Professor Soled has been featured as a tax expert on several television shows and radio programs. Professor Soled has also been an expert witness in close to a dozen tax matter controversies.

Curriculum

The Master of Accountancy in Taxation program is a 30-credit program that is real-world focused, technologically sophisticated, and attentive to the interplay of taxation around the globe.
