Ramaswamy for President? Readers Respond

Vivek Ramaswamy's run ("Why I'm Running for President," op-ed, Feb. 22)

*Mr. Ramaswamy is brilliant, articulate and passionate, with ideas to move this country forward. But his time has not yet come. It will. Run for some other public office first, build your ties with the party, become a successful governor and then run for president. He would be seasoned by then and hard to defeat.*
